

Profile collection App - User Documentation

Getting Started :

- Accessing the App - <https://yuva09685.github.io/dynamic-reactapp/>

Creating profile :

The screenshot displays the 'Profile Collection App' interface. On the left, there is a 'Create Profile' form with four input fields: 'Name *', 'Email *', 'Location *', and 'Bio *'. Below these fields is a blue 'SUBMIT' button. On the right, there is a user profile card for 'jitewaboh'. The card includes a circular profile picture, the username 'jitewaboh', the email 'jitewaboh@lagify.com', the location 'Denmark', and the job role 'CEO'. A trash icon is visible next to the email address.

- 1. Please fill the information in **create profile** form .
 2. Enter the valid email with format like (user@gmail.com, user@organisation.co ,etc...)
 3. Enter your full name .
 4. In **Bio** please define your job role .
